

The DRY ICE ADVANTAGES

- ✔ **More effective, quicker clean** for fewer cleaning cycles, longer runtimes, less downtime.
- ✔ **No disassembly/reassembly** so machines can be cleaned in place.
- ✔ **Non-abrasive, nonflammable and nonconductive** so it's safe for most substrates, electrical components and delicate/intricate devices.
- ✔ **Works in tight spaces** better than many other methods.
- ✔ **Non-toxic, non-hazardous** remediation and prevention of mold and bacteria growth.
- ✔ **Approved for many applications** by the EPA, USDA & FDA (the grade of CO₂ used for industrial blasting is same as that used in the food and beverage industry).
- ✔ **No harsh chemicals** for longer mold and equipment life.
- ✔ **Carbon-neutral**—the CO₂ used is a natural by-product of other manufacturing processes.
- ✔ **Greater operator safety/efficiency** as there are no chemicals or grit media.
- ✔ **No water, residue or secondary waste** for quicker clean-up, less risk of packaging damage and product contamination, less labor and expense.

Manufactured at our St. Cloud Store.

**CENTRAL
McGOWAN**

ColdZERO™ Dry Ice is manufactured by Central McGowan—the area's leading supplier of industrial, welding, medical and food and beverage gases since 1947.

- **Made with the newest dry ice technology** from Cold Jet®—a leading global supplier of high-capacity, quality dry ice production equipment for **the highest density** dry ice available today.
- **Superior** to sand, soda, water, solvents, chemicals, or power/hand tools in terms of cleaning performance, efficacy, efficiency and ease of use.
- **Far more cooling power** than water ice pound for pound.
- **Made daily to order** for maximum freshness, shelf life, cooling and cleaning.

Sold in Blocks (Full and Half), Nuggets and Rice.
For orders of 500-lbs. and larger:

- **Same-Day Delivery & Pickup** available.
- **Packed in Reusable, Rolling Insulated Totes** for easy pickup and delivery (lined to ensure purity).
- **Volume-based Priced**, so the more you buy the better the price.

WARNING! HANDLE WITH CARE.

Dry ice is extremely cold -109.3°F (-78.5°C). Touching dry ice with unprotected skin can cause freeze burns or even frostbite. DO NOT put dry ice in any space that is not well ventilated OR store in an air-tight container. NEVER leave dry ice unattended. It should always be kept out of the reach of children and animals. Do not ingest or use in drinks or beverages.
