

COLDZERO™ DRY ICE

FROM
CENTRAL
McGOWAN

EXTREME COLD TECHNOLOGY FOR THE TRANSPORT OF CRITICAL VACCINES.

- Local Supply
- Convenient Delivery & Pickup
- From a Trusted Gas Expert
- Newest Technology
- Highest Density Rice Available

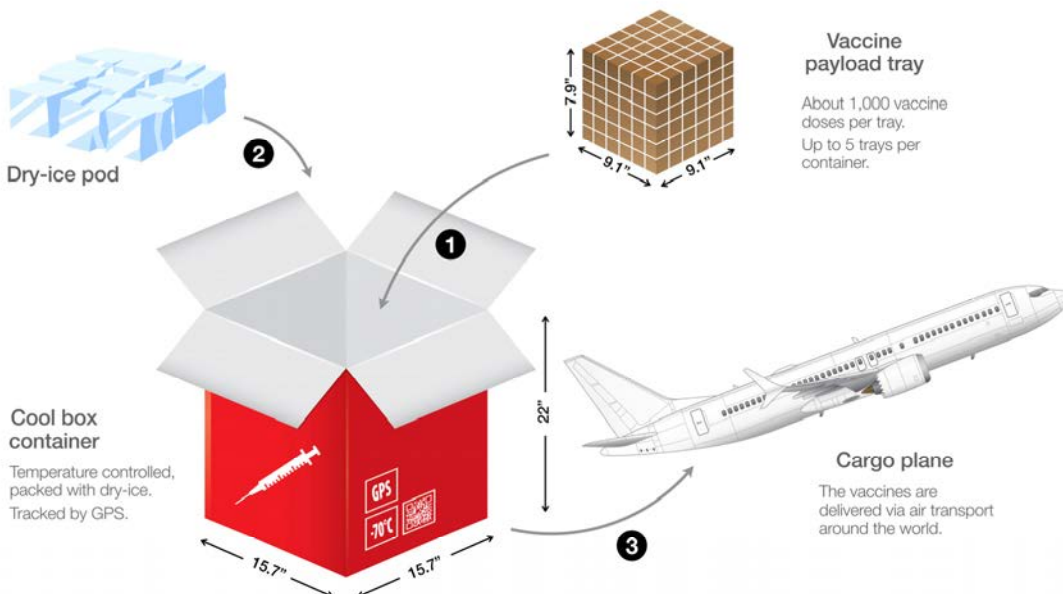

MADE FRESH DAILY TO ORDER

ColdZERO Dry Ice offers extreme cold technology for the safe storage and transport of critical vaccines, tissue samples and more. Manufactured by Central McGowan—a leading supplier of industrial, welding, medical, and food & beverage gases since 1947, it is stocked and packed locally, on-site for maximum freshness and immediate availability.

HOW IT WORKS: Cool Box for Vaccine

Pfizer's temperature-controlled "Cool Box" can store 1,000 to 5,000 doses for 10 hours at -70°C / -94°F before requiring re-charging or re-icing.

Dry Ice Nuggets

- Sold by the Pound to Recharge or Re-Ice the Cool Boxes for up to 30 Days
- Blasting Rice and Blocks also Available
- Volume-Priced

Will-Call or Walk-Up

- Truck Delivery Available to Limited Areas for Larger Orders

Courier Service Flexibility

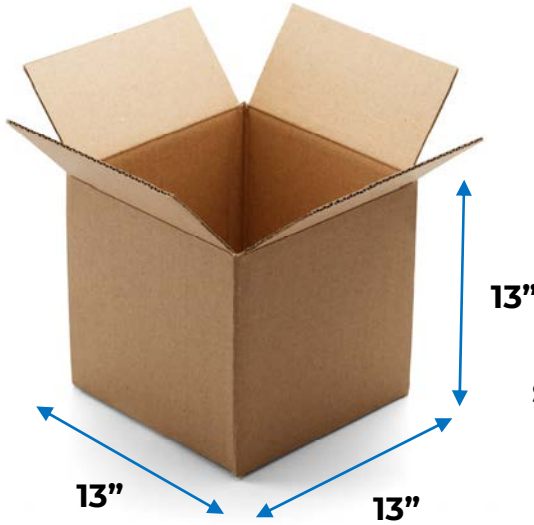

- Use Your Own or one of our Contracted Couriers
- Pricing Dependent on Timing/Distance (ie Twin Cities Metro \$25 for 3-hour timeframe)

Per-LB Price Reduction for Orders of 500 LBS or More
