

These newly added products are American Made and designed to add precision, power, comfort & productivity to your work.

Jazzy #10 Ceramic Kit

\$25.00

Part # DOG J10KOKN

Includes 2 ceramic cups and 1 spare screen diffuser. Screws on 45V44 for the 9/20 torches of the 17, 18 and 26 adapter kits. Great for mild steel. Can handle 175 amps DC with 3/32. Recommended for AC.

\$30.00

Fupa #12 Ceramic Kit

Part # DOG FU12KOKN

Includes 2 ceramic cups and spare diffuser. Performs identical to original glass version with added strength of ceramic cups. Comes only in 3/32 – 2.4 mm tungsten size and will thread on a 45V44 or 17 kit. Does not require O-rings. Handles up to 200 amps non-continuance. Recommended for DC only applications.

Diamondspark Seamless MIG Wire - IN STOCK!

- ✓ Positional metal-cored, high-efficiency wire, especially designed for semi-automatic and fully automatic joint welding of unalloyed and fine-grained constructional steels.
- ✓ Higher wire rigidity for exact ignition and positioning accuracy; very high metal recovery between 95% and 97%; steady spray arc-like droplet with minimal spatter formation; good penetration; high resistance to porosity; low hydrogen contents (~ 2ml/100g weld deposit). Minimum oxide residues permit multi-pass welding without inter-run cleaning. Ideal for horizontal and flat fillet welds.
