**FDA: Licensed Drug Manufacturer | Certificate of Compliance
Licensed by BOARD OF PHARMACY**

Medical Gases

for all types of
healthcare and
dental facilities

You're in the business of caring for patients
and/or conducting important research projects
for the advancement of medicine.

Having a reliable, cost-effective supply of
medical and specialty gases is critical. That's
the business we're in.

Whether you're needing a gas mix for an IVF
laboratory (5% CO₂, 5% O₂ and 90% N₂ with an
optimal pH of 7.2 to 7.4 to prevent alteration in
an embryo's metabolism) or nitrous oxide for a
dental clinic, we can deliver.

Specialty Gases

for a wide range of
applications in medical
manufacturing and
analytical research

We offer a wide array of medical products to fit
your need or application, with flexible
delivery/packaging solutions based on the
level of safety, stability, mobility and
convenience required.

ABOUT US

We offer a consistent, reliable supply of high purity gases, services and products that optimize performance across a wide array of applications.

This includes technical consultation with our in-house experts; specialized, supportive equipment; and turnkey, no-hassle logistics and delivery. Backed by a certified lab and safe, reliable packaging options—all aimed at exceeding your critical operations, application needs and expectations.
