

## What Challenges Can Automation Help Solve?

**With 75+ years in the distribution business, we know manufacturing.**

Let our automation team help you solve bottlenecks, labor issues and take the back-breaking work out of your processes. Here's a look at the solutions we do most, including assembly, palletizing, welding & machine tending. But we're always up for new challenges.

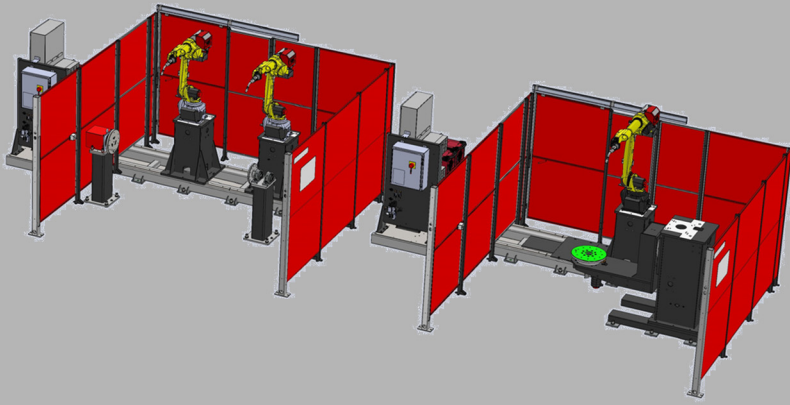

## ROBOTIC Palletizing

*Boxes, Pails, Bags & More*

## ROBOTIC Welding Systems

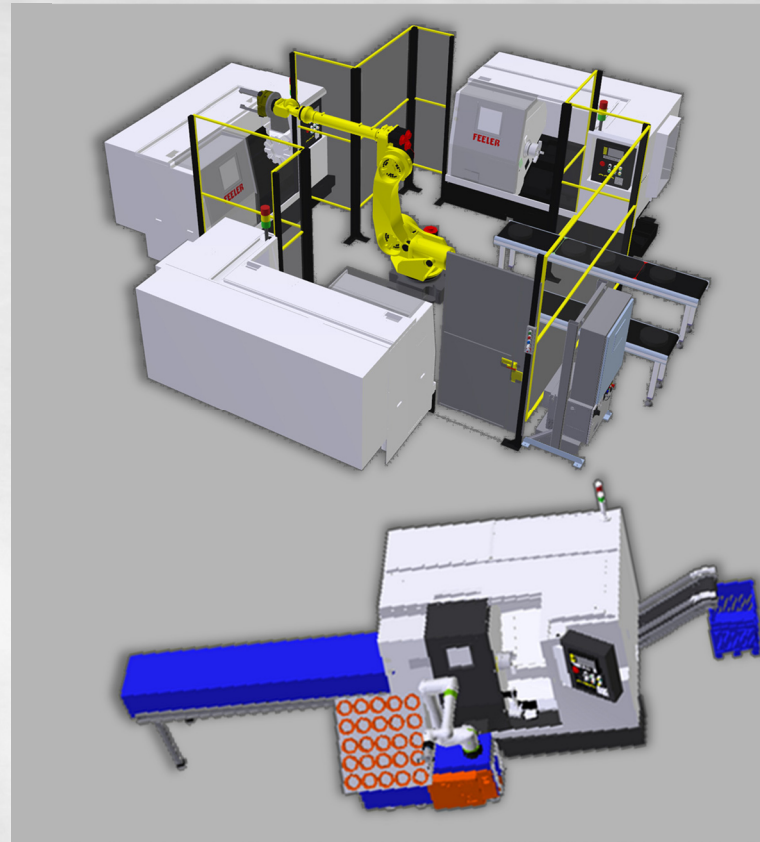

## COOPER™ Cobot Package

Robot designed for  
direct interaction  
with a human.

- FANUC collaborative CRX
  - ZERO maintenance - 8 Years
